DEMOGRATS FEEL SURE OF NEBRASKA.

Republicans, However, Are Just as Certain That Mc-Kinley Will Carry It.

Adherents of Both Parties Figure Out Majorities for Their Candidates.

Recent Poll Makes It Appear the State Will Go for Bryan by at Least 15,000.

Asserted, Will Be Sufficient to Elect the Fusion Ticket and Bryan

Omaha, Sept. 24.-Will Bryan carry his own State-Nebraska? This is a lending question in business and political circles situation and report the true facts with-out bias or prejudice. Bankers and busi-ness men generally are daily in receipt of inquiries about the trend of sentiment in platform and cheered Mr. Bryan, who said:

The replies have bee nencouraging to Republicans until within the last ten days. Reports are current that the State will go for Bryan by a tremendous majority; that Insion of the Democrats and Populists is complete and that the voters are desper-

A poll of the State was made by the Republican State Committee the other day and fifty prominent Republicans were called in to hear the footings announced. The most favorable count that could be made gave the Bryan electors a majority of There never has been any question about the fusion ticket carrying the Third and Sixth districts, and very little respecting the Fifth. Fusion was never so thorough and absolute as it is in Nebraska to-day.

The Republicans and gold Democrats possess the only political organization in the State, worthy the name. They have 85 per cent of the powerful resources that count on Election Day. They have \$5 to every \$1 in the opposition camp. The political brains and money of the State are

How the Vote Stood Last Year. State Committee, said:

201 votes, the Populist candidate re-ceived 70,566 votes, and the fusion candidate 10,079, making a total vote of the fusionists and Populists 80,645, or a little more than 1,000 votes more than were given the Republican candidate. The reguar Democratic ticket polled 18,636 votes. There is no doubt that quite a percent-

age of the 10,000 votes polled for the fusion ticket was cast by Democrats, who voted for the candidate of that organization upon the theory that in so doing they were supporting the regular Democratic organization. Deduct the number so voting from the joint votes of the Populist and the reason why our opponents insist on and fusion tickets, and the Republican par- using the word, or the phrase, "honest ty would have a majority of somewhere from 2,000 to 5,000 votes.

"Now, with a third or regular Democratic ticket in the field, no doubt quite a number of those who voted the fusion ticket in '95 will return to the straight ticket this Full, so that the vote for the regular Democratic ticket ought to be increased to something like 20,000 to 25,000 votes, and upon this theory the Republicans should carry the State by a small majority, and in my judgment they will do so."

Believes Bryan Will Carry It. Constantine J. Smyth, until recently chairman of the Silver Democratic State Committee, said:

'No matter what may be done with reference to the official ballot, this State is going to give Mr. Bryan at least twenty housand majority. The Republicans have in this State about eighty thousand votes, the Populists about sixty thousand, and the Democrats at least forty thousand. I think Mr. Bryan will receive practically the entire Populist vote, and in no event will be lose to exceed one thousand Democrats, and thus he will get about ninetynine thousand votes.

"But, in addition to this, he will receive lican vote of the State. That will be about sixteen thousand votes, which would make his total vote one hundred and fifteen thousand, while the Republican vote will be reduced from eighty thousand to sixty-four

"I do not figure the Republican defection too high. I have received reports from nearly every county in the State of the formation of from four to five Bryan clubs in each county, and the uniform statement is that from 30 to 35 per cent of those who have joined the clubs are ex-Republicans." Says McKinley Is Sure of the State. Chairman Post, of the Republican State

Central Committee, said: Nebraska was safe for McKinley and the entire State ticket, but while I was some, the Populista captured the State for

There is no doubt whatever in my opinon that Nohraska will elect the entire Reublican State ticket. I believe this from

sewing machine. (Applause.) We want to bring prosperity to this nation by commencing at the bottom of the masses of the people, and then that prosperity will find its way up to all the other classes of soclety. I understand that some of your employers are very much wourled for fear their employes will only get fifty-cent dollars. They need not be worried. If they have us much love for the laboring man after the age meant fifty-cent dollars, they could pay save them from any harm done them, my

you when they have a chance to, why do you believe them when they tell you they are losing sleep at night for fear you will hurt yourselves? Employers don't pay wages because they like to; they pay wages because they have to, and when there is a greater demand for labor there will be a better price paid to labor than there will be when two men are looking for the same job. (Ap-

The gold standard destroys the opportunity to work; the gold standard makes men work half time because there is nobody able to buy the products of the factories, and the farmer is not able to sell his crops for enough to pay taxes and interest. How is he going to buy other things which he needs, my friends? The farmers of this country need as much as they ever did and every year finds them less able to buy these things which they need, and you people here who manufacture find it impossible to sell what you produce because the farmers are not able to buy what you produce.

You think you can destroy them with impunity. I warn you that the farmers of this country are the Samsons, and when they fall they pull down the pillars of the temple with them. (Great applause.) You can-not take care of the upper crust of society and ignore the rest- of society. And yet the gold standard has for its object the benefit of the money changer and the note shaver and the holder of fixed investments. They tell you that those with fixed incomes are going to lose. How many fixed incomes have we in this country? I will give my opponents the votes of all the incomes that people who would like to have incomes in

There is not a spot where the American flag floats which will not be benefited by the restoration of the money of the Constitu-There is not a spot which will not be cursed by the continuation of the gold standard. I don't know how you feel about it. You people down here have not studied the money question as much as we have in some other parts of the country. But, my friends, if you imagine that the silver cause is a craze and is going to blow over, don't you hold your breath until the craze

Silver a Growing Cause. The silver cause is a growing cause. Its friends know what they want, and are not afraid to defend the principles which they advocate, and this grasnde which we have undertaken is going to go on and if you turn a deaf our to us now we will come again

until you will open your ears and listen If you are satisfied with present conditions then vote the Republican ticket, because you will have certain conditions, only a little harder conditions than you have at present. If you want a change in the financial policy there is one way to get that change and that is to defeat the party that declares that this nation must endure a gold standard until the leading commercial nations of the world permit us to relieve ourselves or relieve us themselves. I am not willing to do that. I don't know how you feel about it, but when they tell me there is a State in this Union which will decime in favor of the Republican ticket, when they tell me that there is a State in this Union where the people are willing to transfer to foreign nations control of their finances, I tell them that I have roo much respect, too much confidence in the in-telligence of the people of this country to standar the people of any State by saying that they are willing to surrender the rights that our forefathers fought for. I am going to wait until these people so vote and let them declare their own infamy. I shall

not declare it for them. (Great applause. I am glad, my friends, to have been able to speak to you. I can but urge you to study this question, realizing its importance to you and to the country, and if, after you have studied it, you think we are wrong, vote against us. But remember that if by your ballot you continue the present conditions, where syndicates are protecting the Treasury at a high price, then you will have nobody to blame for four years more of hard times except yourselves. If you want this sort of thing then prepare yourselves to grin and bear it without complaining for four

If you want relief, you have got a chance to get it by saying so at your ballot box, because if by the suffrages of my countrymen I am elected President of the United States I shall lose no time in doing what I can do to drive the gold standard from this country and in its place substitute the gold and the mints to the free and unlimited coinage consent of any other great nation.

Yale Students Interrupt, At New Haven Mr. Bryan was con tion, and received many cheers. among whom were a number of Yale o'clock he went to the Capitol Park. I am glad that there are students here, be-

cause I want to say a word to students, Your college has helped to add fame to your city, and those who assemble here are supposed to come in order that they may better equip thamselves for the duties of life. I am glad to talk to you students, because, my friends, we have a cause which appeals to students. If the syndicates and corporations rule this country then no young man has a fair show, unless he is the favorite of a corporation. (Applause-and yells for Mc-Kinley by a cordon of the students.) If the people have a right to govern themselves and deputize that right, then every citizen has a fair show and every man may achieve what he desires. We desire to leave all the avenues open so that the son of the humblest citizen may aspire to the highest posttion within the gift of the people. (Applause and yells repeated.)

I am not speaking now to the sons who are sent to college on the proceeds of Ill-gotten gains. (Enthusiastic applause.) I will wait until these sons have exhausted what their their children who will have to commence life where their grandfathers commenced. (Great applause.) My friends, a just government is best for the great masses of the people. Equal laws and equal opportunities are best for nine out of every ten of us. (Yells again repeated.) Therefore, our cause appeals to every young man who wants to make this government so good as to deserve the love and confidence and the support of every citizen in this land. We appeal not only to the students; we

appeal to business men who have been

terrorized by the financial-what may I

call it? (Applause.) People have been tyrannized over by financial institutions until in some instances it is more dangerous to raise your voice against the ruling power than it is in absolute monarchy. (Great applause and yells.) If there is anybody who loves that sort of thing then I shall offend him by speaking of it, but I shall not offend any man who loves liberty and the right of free speech in this country. (Great appliance.) The business men have been told that the free colnage of silver would ruin them. it can ruln them with more rapidity than the gold standard has ruined them, then, my friends, it will be had, indeed, because the gold standard has increased the number step that has been taken has been followed. (Yells from the students.) I have been so used to talking to young men who earn their

to talking to young men who earn their own living, that I hardly know what language to use to address myself to those who desire to be known, not as creators of wealth, but as the distributors of wealth which somebody olse created. (Great applause and cheering.) If you will show me a young man who has been taught to believe-(More yells and cries of "McKinley.")

In all my travels I have not found a crowd that needed talking to so much as this crowd does. (Cries of "That's right.") I came to this city something more than a year ago and I learned something of the domination of your financial classes. I have seen it elsewhere, but, my friends, the great mass of the people, even of this city, will be better off under bimetallism that permits the nation to grow, than under a gold standard which starves everybody except the money changer and the money owner. (Great ap-

plause.)
We sometimes out West are instructed by your insurance companies. I carry insurance in old line companies and in what are known as the mutual and assessment companies, I carry insurance in featernal organizations like the United Workmen and the Modern Woodmen (applause), as well as in the old line companies, and I am grateful that my assessment companies are satisfied to take money and give me insurance without attempting to tell me how I must yote. Your old line companies have seen fit to insult the in-telligence of the people by attempting to exercise a guardian care while we are able to look after ourselves without their instructions. You have laboring men also in large

numbers in this city. I don't know whether the advocates of the gold standard who employ men in the shops insist upon telling their employes how to wote. I have in other places found employers day's work or week's work, and then pin on the outside of the envelopes some instrucif the employer, if the railroad president feels as if there must be something on the outside of the envelope as well as upon the inside, let me suggest something which the employer might put there. Let him write on the cotside: "You will find within your wages. They are to cover your work. They are not to pay for your vote. We recognize that the men who have sense enough to do the work we want done have sense enough to vote right without our telling them how to vote." (Applause.)

I notice that in some places they have been organizing sound money clubs, and they have the applicant sign a statement, sayl that the free columne of silver would hurt ...m in his business as a wage earner. I have won-dered why our great financial magnates did not put in their application a statement similar to that. Why don't the heads of these syndicates which have been bleeding the Government make application to sound money clubs, and write in the application that the free coloage of silver would hurt them in their business as heads of syndicates? (Laugh ter.) They want people to believe they are entirely benevolent, that they are philan-thropists and what they do is done merely because they believe that the people will be benefited by having them run the Government, and they submit to the inconvenience of running the Government, in order to help the people, who, they say, will be benefited. (More confusion and applause by the stu-

Why is it that the broker or the bond he has a personal interest in the gold standard? Why is it that these men want throw upon the wage earners whatever odium his personal interests? I believe the wageand the professional man, all of these, will be benefited by a volume of money sufficient to do business with. If you make money scarce you make money don't. If you make money dear you drive down the value of everything, and when you have falling prices you have hard times. And who prespers by hard times? There are but (ew., and those few are not willing to admit that they get any benefit from hard times. No party ever declared in its platform that it was in favor of hard times, and yet the party that declares for a gold standard in substance declares for a continuation of hard times. It is hard enough to talk when all the conditions are favorable, and I must ask you to excuse me from talking any further in the presence of the noises against which we have

to contend to-day. Great Meeting at Hartford.

eliver coinage of the Constitution, and open | When Mr. Bryan reached Hartford from New Haven at 6:20 o'clock in company of gold and silver at the present legal ratio with Colonel Graves, chairman of the Hartfod committee, and Alex. Troup, chairman of the Democratic State Central Committee, he found a great throng at the staducted to a stand on the south side of Cen- riage was followed to the Heublein Hotel tre Church, facing "The Green." He was by a crowd of men, many of them bearing listened to by a crowd of about 25,000. faming candles of red Greek light. At 8

students, who so frequently interrupted | The gathering here was extremely large. Mr. Bryan that he once stopped, and was Around the speaking stand, erected a hunfinally forced to cut short his speech. He dred feet from the Capitol building, people were massed by the thousands. formed a solid throng 200 feet square, and numbered in the neighborhood of 12,000.

Mr. Bryan sand: Ladies and Gentlemen-I am glad to meet the people of this, the capital city of Connecticul. I know, when I come here, I come to meet many who not only are not in sympathy with the cause I r present, but that I meet among you some who are too intoferant even to consider the merits of the cause I represent. (Applause.) Error always shuns the light of day, and those who are enjoying that which is wrong are never willing the people should hear the right, lest they may be convinced by the right. (Applause.) Your financiers sometimes assume that they alone understand a question like the money question. I want to rend you what Senator Fessenden said about the knowledge of finances on the money question. You will and it in a speech made at the time the legal tender laws were being discussed.

Nobody knows much on the question of finance, not even those who are most familiar with it; for, sir, I declare to-day that in the I have consulted I never have found any two of them who agree, and therefore it is hardly worth while for us to plend any very re-markable degree of ignorance when hobody is competent to instruct us; and yet, what is the fact? I can state to you, Mr. President, that on one day I was advised strongly by a leading financial man at all events oppose this legal tender clause, and be exclaimed against it with all the birterpess in the world. On the very same day I received a note from a friend of his, telling me that we could not get along without it. The next day I showed it to the first duancier, and he expressed his utter surprise. He went home, and next day telegraphed to me that was absolutely necessary, while his friend changed his, and they were two of the most

eminent financial men in the country. There you find the testimony not of a Western man but of an Eastern Senator, that even question or on a financial question, and that two men advised him in different ways on the same day and on the next both changed their minds. I call your attention to this because our inanciers speak with all the assurance of men who receive their knowledge direct from some higher source. The fact is, the Western farmer who has been pinched by the gold standard, has a clearer conception of what the gold standard means than the man dayn the operation of this system. (Applause.)

vention. Necessity is also that which prompts to an investigation of all evils we find. Those who suffer from evils must investigate. their cause and by relieving the cause remove the evil. Never in the history of the goods. You find the truth expressed in the Scriptures. In the Parable of the Sower you are told that some seed fell among thorns and the thorns sprang up and choked it.

Work of Insurance Companies.

I would not take from those who have a single dollar they have. I would not take or destroy one lots of the happiness they enjoy, but I believe the safety of our Government depends on limits to greed and putting a check upon avarice so those who have will not monopolise all the revenues of industry and shut out of employment those wh desire to have. (Applause.) Of all the instrumentalities which have been conceived by the mind of man for transferring the brend that one man carna to some other man who did not earn it. I believe the gold standard is the greatest. The gold standard, by its silent process of adding to the value or dollars and taking from the value of property is making the rich cloher and the poor poorer, and when the poor complain, those who are benefited by the system turn on them and call them a mob, and dispute their intelligence and deny their right to administer the government of this country. (Ap-

plause.)
I want to repeat a few of the fundamental principals which underlie the subject. If there is a person here who is personally beneficed by a gold standard i do not expect to track blue. If there is some one here why thinks he is heutiled and is not I may be

They tell us necessity is the mother of inworld has a reform come to mankind from among those who were not benefitted by that reform. Why? Because, my friends, those who are not suffering do not consider the condition and do not investigate and therefore want to may here in this city, where so much wealth is accumulated, that there is another reason why reform never springs from those who have a large amount of the world's

When the parable was explained the Disciples were told that those people who were described in that part of the parable were the people who had the care of this world to contend with; those people in whom the deceitfulness of riches choked the truth. I say to you now, the truth that has been proclaimed from the foundation of the world has been choked by the care of this world and by the deceiffulness of riches, and it always had to go to the common people to find a soil in which it could grow. (Ap-

Another reason why I am glad to come here is that here you have got great insurance companies. I notice some of them are the gold standard. Is it not worth while for these insurance companies to consider the interests of the rest of the people of this country? These companies collect their money on premiums paid by the recple and then these collections are loaned back to the people. Is it not worth while for these insurance companies to consider the interests of those who furnish them all the money they have, and pay all the intarest they receive? If you say the insurance companies are trying to look after the interests of those who hold policies, I ask is it not probable that these men who have sense enough to pick out a good insurance company have sense enough to know how to vote without being instructed by the heads of insurance companies? (Applause.) Remember these insurance companies are re-ceiving premiums far more than they pay out an losses, and that therefore a dollar grows larger all the time is of more benefit to them than it is to the policy hold-

pretence of unselfishness on their part, they the people than they dught to have. The people know the presidents of these com-panies are more interested in their fixde salpanies are more interested in their mag sar-aries than in preventing the policy-holders from suffering from the free coinnge of silver. (Applause.) Another thing: The people know these insurance companies have a greater objection to the Chicago platform than they have stated in their opposition to free column. Do you know why these insurance companies are so much opposed to the Chicago platform? I will give you one reason. The Chicago platform expresses a desire for an income tax, and these insurance companies claim the protection of the Government, and are not willing to puy taxes to support the Government which protects them. (Applause.) They secure large incomes; they prosper much; they go into the United States courts and seek their protection, and then they want to turn over to the less fortunate all the burdens of supporting the Government. If the presidents of these insurance companies would assume the responsibility that belongs to them, and consent to pay their just share of the taxes of this Government, they would be more respected by the

Why Intolerance Exists. I am glad to come here for another reason. I told you I found intolerance in some of these centres. I know why that intolerance exists. Let me read you something, and see if you can guess who wrote it:

the ability to earn large incomes necessarily gives to those enjoying this income great influence over public opinion. They speak through the daily press, from high office, from great corporations, from cities where wealth accumulates, and with the advantage of social, personal and delegated insuppose? What disturber of the public peace

words? Those were the words of Senator 1871 when he was defending an income tax at that time. (Applause,) He says the postession of great wealth gives influence to the press, through official stations, through great corporations, through personal and political influence. It is true these great influences are always arrayed against any

Our opponents say we are enemies of good government. I deny it. There is no country than I am. I love my country, and I love it I want to keep it as our forefathers intended it, and not have it converted into a plutocracy where wealth rules and the

people are silent. (Applause.)

overnor.
"Hr. Thacher," said he, "is a man with mphatic views of his own, a well-inarmed man, probably the best read man a the State, an independent and a very realthy man. He will act upon his per-

Thacher Incident.

events that have occurred during the last few days is Mr. Thacher's declination.

The matter rests entirely with Mr. Thacher, however. If he refuses to withdraw the State Committee can do nothing. Mr. Thacher's high-mindedness is rated so excellently by Democratic politicians generally that it is confidently expected he will retire when he knows that the best elements of the party are against his retention on the ticket.

Democrats and Populists Agree to Divide Their Electors.

Washington, Sept. 24.-Advices received here to-day show that fusion has been acnango, Orango, Cattaraugus, Allegany, complished between the Democrats and Populists in Illinois, Wyoming and North and, Rensselner, Chemung, Jefferson, Carolina on the electoral ticket, as well as land, Rensselaer, Chemung, Jefferson, Franklin, Oneida, Onondagua and Monroe counties. These organizations represent a large majority of the Democratic voters of the State.

The retirement of Thacher is to all Democratis a matter of expediency. After the State Committee meeting some of the Tammany leaders thought that agitation of the Populist hamed two electors and the Populist sixe, and are given and the silver party one. In Wyoming the Democratis hamed two electors and the Populists one.

> RAN AWAY WITH TROUSERS. Policeman with a Revolver Captured Rief in a

Woodshed. told him how the masses were clamoring John Rief, twenty-three years old, an ex-for Thacher's retirement. The leaders insisted that the candidate must retire to mother at No. 7 Marcy avenue, Williams-purge Tammany of the charge that it was n league with Senator Hill in folsting a Clarke, of the Bedford Avenue Station, old advocate on the State ticket.

Bernard J. Tork, of Kings, a Hill lieutenth, was also convinced yesterday that the mak and file of Brooklya would not listen to Thacher's retention.

Louis W. Pratt, of Albany, who put Mr. Pincher in nomination, at the latter's personal request, has gone to Albany, and life gave chase, followed by a large crowd. When Ainsile street was reached. the sure likely to have some teral Democratic State leaders of early yesterday norming and oft him the impression that Mr.

The prisoner was only released from the position the impression that Mr.

left him the impression that Mr. ould retire began to deepen.
P. St. John tressurer of the Namiltee was entirely frank.
Mr. Thicher resigns," said he.
e's party will take action."
